GOVERNOR-GENERAL
OF CANADA

Viscount Alexander

ACADEMY OF DENTISTRY

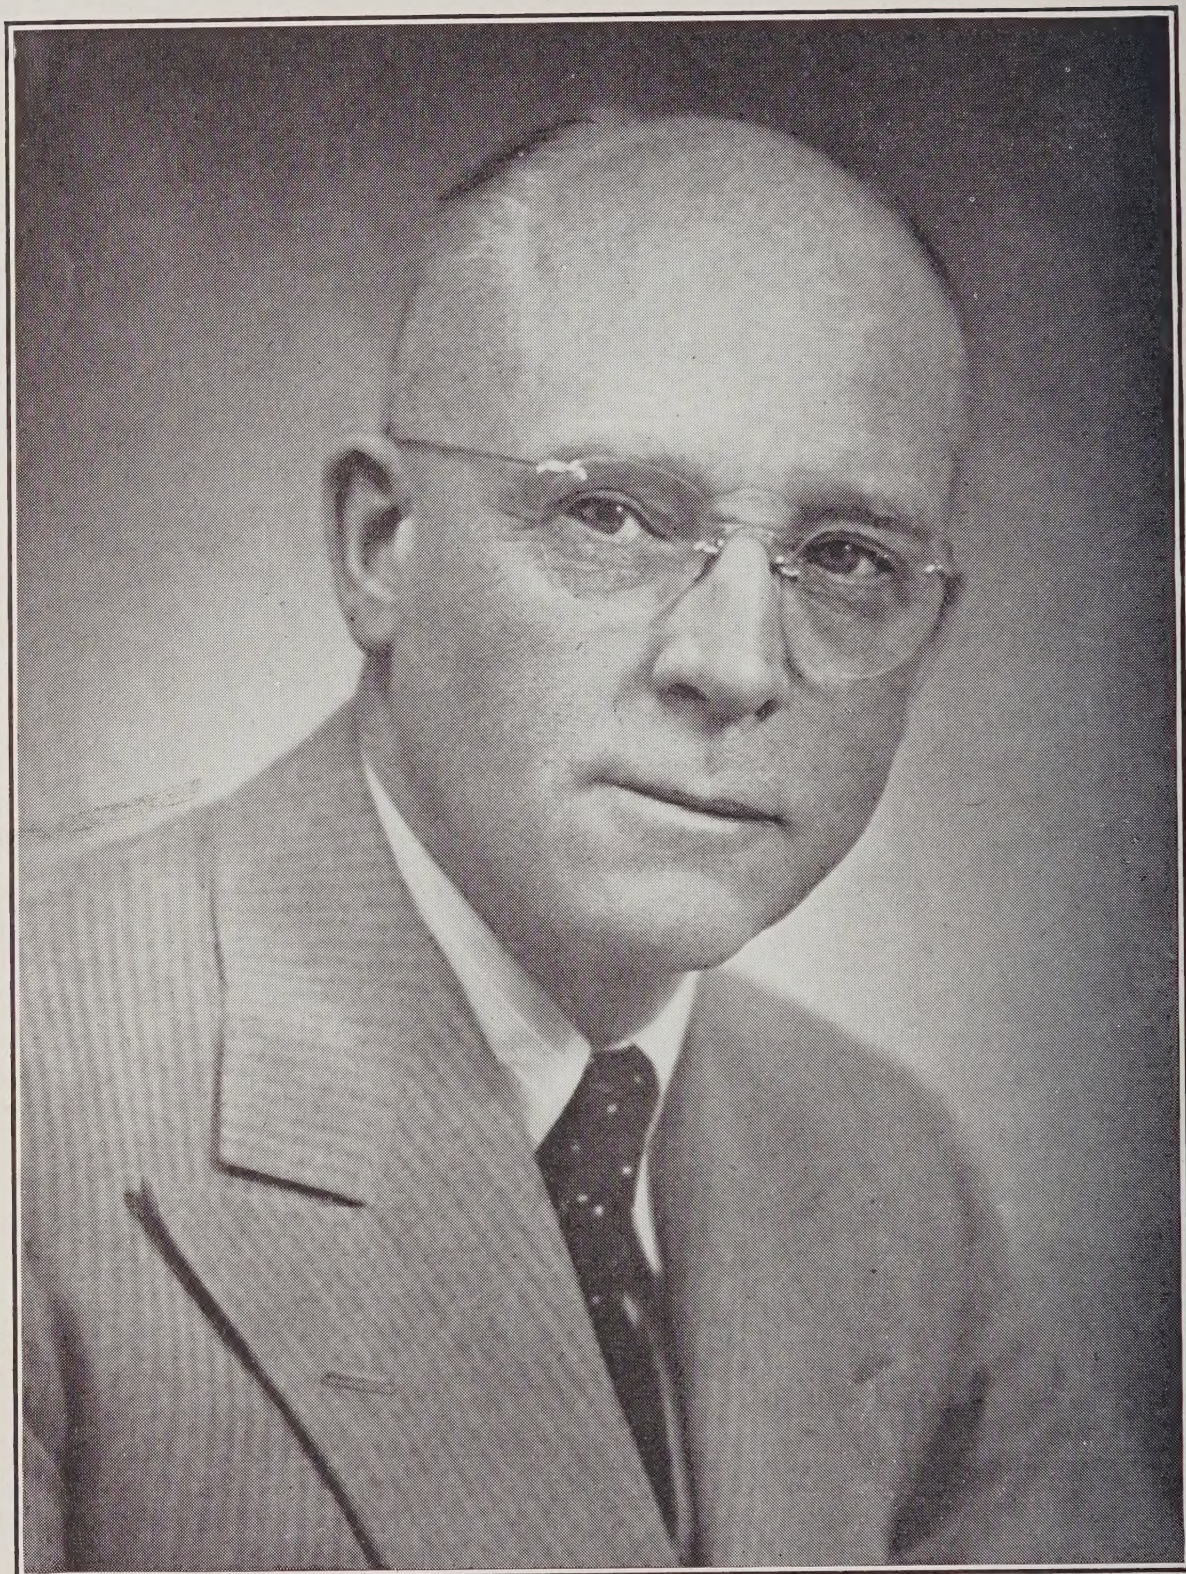

YEAR BOOK

1946-1947

TWENTY-FOURTH SESSION

VOLUME THIRTEEN

DR. H. COLTON BLISS
President

FOREWORD

This is the transition year. The war is over, but the complex problems of peace remain. Change and uncertainty face us on every hand. The efforts of the Academy Council, therefore, are concerned not only with the building of a stronger Academy, but also with the professional welfare of each individual member.

The Program Committee has planned to present at the four general meetings subjects of primary importance to every dentist. The annual Winter Clinic, which is the high light of the season, has been organized also to meet urgent practical needs. It is our privilege to invite all out-of-town dentists to attend these meetings.

The Academy is pleased to extend membership privileges to all dentists serving in The Canadian Dental Corps and to officers re-entering civilian practice. The Rehabilitation Committee has in operation a plan to aid returned officers who request assistance in re-establishing their practice. The members of the Academy are urged to co-operate in this undertaking.

Basic purposes of the Academy are to improve professional ability, that better service may be rendered to the public, and to strengthen our profession to meet uncertainties and emergencies which may confront us. We, therefore, invite every dentist in the Toronto area to consider seriously membership in the Academy.

Your Executive Council asks your sincere and earnest co-operation to make the 1946-1947 season one of the most constructive in the history of the Academy.

H. COLTON BLISS, President.

OFFICERS OF THE ACADEMY OF DENTISTRY

President—H. C. Bliss, 170 St. George St.	MI. 6022
President-Elect—F. H. Shepherd, 1474 Bathurst St.	LL. 9456
Secretary—J. H. Johnson, 230 College St.	MI. 2665
Treasurer—Edgar A. White, 1474 Bathurst St.	ME. 7488
Past President—Harold A. Swales, 205 Yonge St.	WA. 3138

DENTAL PUBLIC HEALTH COMMITTEE

The following Fellows have been appointed by the Executives of their respective societies to act with the Chairman of this Committee:

North—Cecil Summerfeldt, 854 Eglinton Ave., WestHY. 0535
 East—Walter Godsoe, 550 Kingston RoadGR. 9919
 Central—Ed. J. Lehman, 86 Bloor St., WestKI. 0603
 Downtown—Lloyd Saunders, 7 Adelaide St., WestEL. 7034
 West—Stewart Wilson, 5090 Dundas St. W. (Islington) Zone 9-096

The good work of Edgar White and his Committee was continued during the past year and under his guidance the pamphlet for instruction in the Secondary Schools, CHAMPIONS KEEP FIT, was successfully completed. Many addresses were given by the Fellows to organizations wishing further instruction on matters pertaining to dental health. Once again those in charge of the Nurses in Training expressed their thanks for the series of lectures which gave them a greater appreciation of the value of dental health in relation to the whole field of their own profession. During this coming Fall and Winter other calls will come, and your Committee couples with its thanks to those who spoke last year the earnest hope that during this Academy Year others will grasp the opportunity of spreading the story of Dental Public Health.

GEO. C. HARE, Chairman,

2487 Bloor St. W. LY. 3452

CALENDAR OF DENTAL MEETINGS

1946

- Sept. 18—Toronto East Dental Association — Golf Tournament.
- Oct. 10—Toronto East Dental Association — Ladies' Night.

ANNUAL DINNER MEETING

ROYAL YORK HOTEL

6.30 P.M.

OCT. 16, 1946.

SIDNEY EARLE SMITH
K.C., B.A., M.A., LL.B., LL.D., D.C.L.

President, University of Toronto, Toronto, Ont.

Born, Port Hood, N.S., March 9, 1897.

Educated: Port Hood Academy; King's College; Dalhousie University; Harvard University, B.A., M.A., LL.B.; Hon. LL.D., Queen's and Manitoba; Hon. D.C.L., Acadia, King's, Bishop's and Mount Allison.

Read Law with Judge Sangster, Windsor, N.S.; called to the Bar of Nova Scotia, 1921; called to the Bar of Manitoba, 1935; K.C., Manitoba, 1939; K.C., Nova Scotia, 1941. Lecturer, Dalhousie Law School, 1921-22, and Assistant Professor, 1922-25; Lecturer, Osgood Hall Law School, 1925-29; Dean, Dalhousie Law School, 1929-34; President, University of Manitoba, 1934-1944; Principal, University College, 1944-45. Author of "Cases on Trusts", 1928; "Manual of Canadian Business Law" (with J.D. Falconbridge, K.C.), 1929; "Cases on Equity" (with Prof. H. E. Read), 1932. Member, Board of Governors, Halifax Ladies' College, 1930-34. One time Assistant Editor, Canadian Bar Review; Secretary, Commissioners of Uniformity of Law in Canada, 1929-34; President, National Conference of Canadian Universities, 1942-44; President, Canadian Universities, 1942-44; President, Canadian Association for Adult Education, 1941-44; Chairman, Canadian Youth Commission, 1943-45. Served with 9th Canadian Siege Battery, 1916-18; R.F.C., 1918-19.

Dr. Hauser was graduated from the University Minnesota Medical School in 1922 and received his M.S. in orthopedic surgery from the Mayo Foundation in 1927. He began his practice in Chicago in 1930. After a year in Sweden and the continent on the American-Scandinavian Fellowship during 1928.

Member A.M.A.
Academy of Orthopedic Surgeons.
Chicago Orthopedic Society
F.A.C.S.
Etc.

His clinic at the 1946 Midwinter meeting in Chicago was one of the best and most timely clinics presented there.

Dr. Hauser is intensely interested in aiding dentists who suffer particularly from Orthopedic disorders and in suggesting means whereby posture disturbances of this nature may be prevented or corrected due to our occupation. He will offer good advice as to proper posture and show us how to live as we go along and enjoy ourselves while we are operating.

FIRST GENERAL MEETING

U. T. S. AUDITORIUM

FRIDAY, NOVEMBER 8, 1946

EMIL D. W. HAUSER, M.D.

Subject: "HEALTH AND POSTURE OF THE DENTIST"

Prolonged standing of the dentist in the same position, often an awkward position, results in abnormal strain at the weight-bearing articulations. Thus the feet, the knees, the lumbo-sacral angle, and sacroiliac joint are particularly affected.

The essayist will deal with the preventive and corrective measures for these physical disabilities. Emphasis will be placed on early prophylactic treatment, periods of rest during the day, and the increasing of one's general strength by mild, but effective, exercises.

ANNUAL WINTER CLINIC
THURSDAY
NOVEMBER 28th 1946
ROYAL YORK HOTEL

SYNOPSIS OF PROGRAM

8.30 a.m. - 9.30 a.m. REGISTRATION

9.30 a.m. - 12.00 noon GROUP CLINICS

12.30 p.m. - 2.00 p.m. LUNCHEON

Speaker

Rabbi Abraham L. Feinberg

2.30 p.m. - 5.00 p.m. GROUP CLINICS

6.00 p.m. - 7.45 p.m. DINNER

Entertainment

8.30 p.m. - 10.00 p.m. TABLE CLINICS

A complete program will be mailed later.

PLEASE NOTE

1. Because the usual Wednesday hotel accommodation was not available, it was necessary to change the Annual Winter Clinic to a THURSDAY.
2. The cost of operating the Annual Winter Clinic has increased to such an extent during the past few years that the Committee found it necessary to establish a Winter Clinic Fee of \$2.00 for Academy members.
As formerly, the privilege of attending the Annual Winter Clinic is extended to out-of-town practitioners, at a fee of \$2.00.

The Luncheon, Dinner, and Limited Attendance Clinics are not covered by this fee.

ANNUAL WINTER CLINIC

CLINICIANS

Dr. Ernest B. Nuttall, Baltimore, Md.	"Restoration to Functional Occlusion by Fixed Partial Prosthesis."
Dr. James Coupland, Ottawa, Ont.	"Radiodontic Interpretation."
Dr. S. Philp Greaves, Flushing, N.Y.	"Local Anaesthesia."
Dr. W. B. Amy, Toronto.	"Immediate Insertion of Full Dentures with Labial Gum."
Dr. Owen Yule, Toronto.	"Planning a Partial Denture."
Dr. S. Copeland, Toronto.	"Modern Design in Construction of Charmichael and Three-quarter Crowns."
Dr. G. W. Johnston, Toronto.	"Amalgam Restorations."
Dr. R. G. Ellis, Toronto.	"Uses and Abuses of Silicate Cements."
Dr. Earl Bancroft, Toronto.	"The Uses of Acrylic Resins in Operative Dentistry."
Dr. G. L. Frawley, Toronto.	"Exodontia in General Practice."
Dr. R. W. Matchett, Toronto.	"Removal of Residual Roots."
Dr. W. G. McIntosh, Toronto.	"Periodontal Packs and their Application."
Dr. T. R. Marshall, Toronto.	"Planning and Management in your Practice."
Dr. W. K. Pendergast, Toronto. and	"Review of Dental Literature on Child Management."
Dr. C. R. Myers, Department of Psychology, University of Toronto.	"Discussion on the Practical Application of the Material Reviewed."

ANNUAL WINTER CLINIC

GROUP CLINICIAN

DR. ERNEST B. NUTTALL
Baltimore, Md.

**Subject: "RESTORATION TO FUNCTIONAL OCCLUSION
BY FIXED PARTIAL PROTHESIS"**

Dr. Nuttall graduated from the Baltimore College of Dental Surgery, University of Maryland, in 1931. Immediately following graduation he was appointed instructor in the Department of Ceramics, and in 1942 was elected Professor of Crown and Bridge.

This will be an illustrated discussion of the practical bio-mechanical factors peculiar to the diagnosis, the treatment planning, and the procedures involved in mouth restoration. Particular emphasis will be placed on the fixed restorative remedies and the methods of construction employed.

ANNUAL WINTER CLINIC

GROUP CLINICIAN

DR. JAMES COUPLAND
Ottawa, Ont.

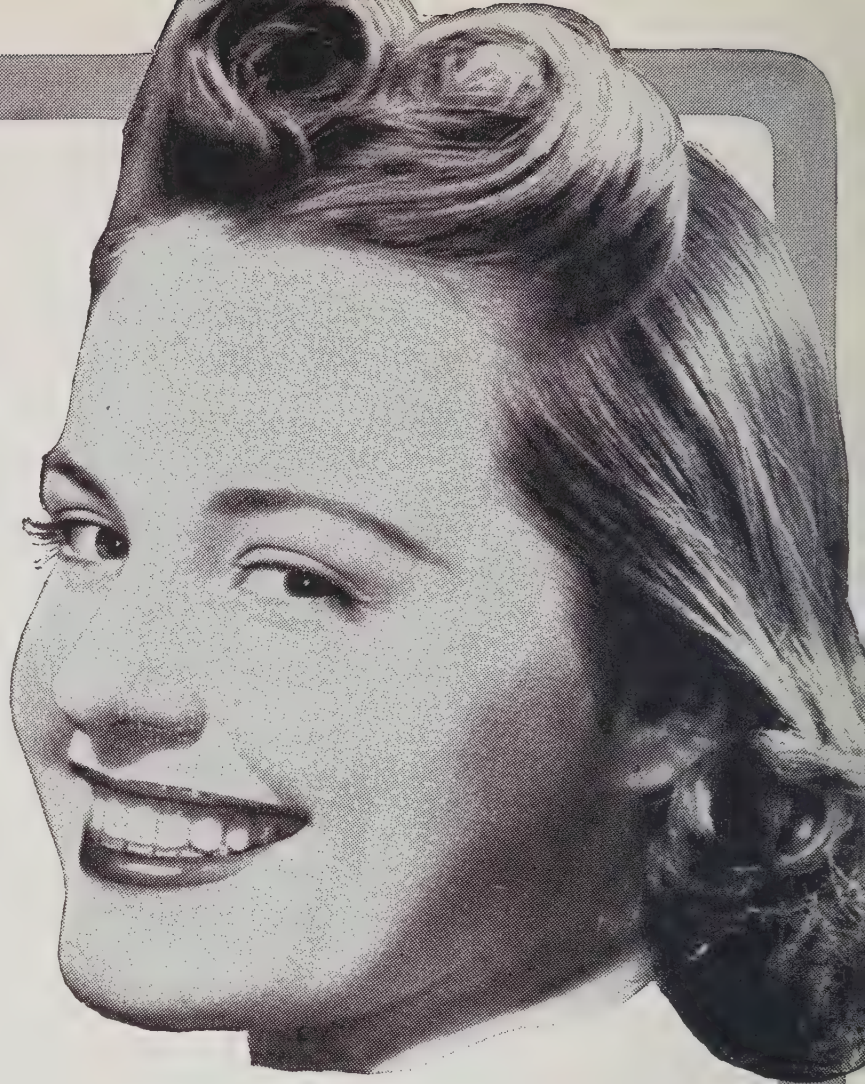

Subject: "RADIODONTIC INTERPRETATION"

Dr. Coupland, who studied with Dr. Clarence Simpson, of St. Louis, is well known to many Academy members, and is recognized as one of Canada's leading authorities on the subject of Dental Radiography.

The subject matter of Dr. Coupland's clinic will include the outline of a systematic procedure for employing radiography in Oral Diagnosis.

The Essentials of a good DENTIFRICE

1. Removal of Greasy Film
2. A polishing Agent
3. Mild Antiseptic Action
4. An Alkaline gent
5. Absolute Safety

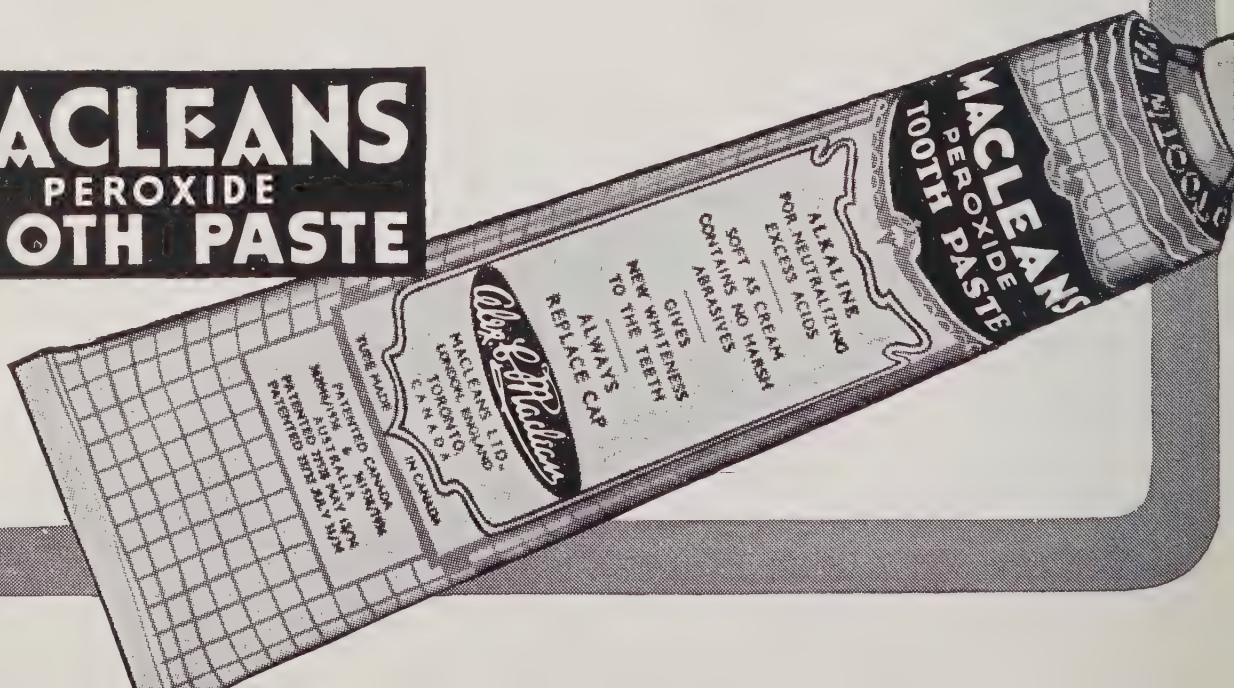

It is not claimed that Macleans Tooth Paste will produce healthy teeth, cure pyorrhoea or even arrest the development of this disorder. It is offered for what it really is, namely, a first-class dentifrice eminently suitable for regular use by everyone. It will keep healthy teeth clean,

and thereby help towards maintaining their condition and appearance. . . . If you desire professional samples, write Alex C. Maclean, 295 Richmond St. W., Toronto, Ontario.

It's safe to Recommend

MACLEANS
PEROXIDE
TOOTH PASTE

ANNUAL WINTER CLINIC

LUNCHEON SPEAKER

RABBI ABRAHAM L. FEINBERG
Toronto

Rabbi Feinberg is a graduate of the University of Cincinnati, with post-graduate studies at the University of Chicago and Columbia University. He studied music at the American Conservatory in Fontainebleau, and was ordained at the Union Hebrew College.

This extensive background, coupled with his dynamic personality, has enabled Rabbi Feinberg to participate in many civic and cultural projects, and to assume responsibilities which are many and varied. He serves on many committees, among which are the Canadian Conference of Christians and Jews, and the Board of Directors of the Toronto Symphony Orchestra.

He has written extensively in various magazines, and is known to many through his Sunday morning broadcasts on the "Brotherhood Hour", over radio station CKEY. Those who are familiar with this program know him to be a distinguished orator, a man who has the courage of his convictions; and the welfare of all mankind at heart.

SECOND GENERAL MEETING

U. T. S. AUDITORIUM

WEDNESDAY, JANUARY 15, 1947

DR. CLAUDE W. BIERMAN
Minneapolis, Minn.

**Subject: "THE VALUE OF CHILDREN IN THE
GENERAL DENTAL PRACTICE"**

After graduating from the University of Minnesota in 1919, Dr. Bierman limited his practice to dentistry for children. He has conducted post-graduate courses and lectured before many Canadian and American dental societies on the various phases of Dentistry for Children.

This presentation will be based on the primary belief of good dentistry for each child patient. The compensating fee for the general practitioner will also be discussed.

THIRD GENERAL MEETING

U. T. S. AUDITORIUM

WEDNESDAY, FEBRUARY 19, 1947

DR. CECIL H. BLISS
Sioux City, Iowa

Subject: "MAINTAINING A SUCCESSFUL POST-WAR PRACTICE"

Dr. Bliss graduated from the University of Iowa in 1922 and remained on the faculty as a demonstrator in the Department of Prosthodontia for two years.

For some time he presented Prosthetic Clinics throughout the country. Since 1933, however, he has lectured exclusively on Dental Economics and Practice Management. At present he is Guest Lecturer on Dental Economics and Practice Management at the University of Iowa Dental School. Since 1924, he has been in private practice in Sioux City, Iowa.

It is not enough to have attained proficiency in one's chosen profession without certain other qualities. Many dentists of excellent technical skill, because of their inability to attract and hold a practice, find it difficult to build a remunerative practice. Practice Management, therefore, is a vital part of a successful practice, and Dr. Bliss will discuss the difficulties encountered by the dentist when he attempts to compete in the business world.

CALCIUM

A

Not only does "Calcium A" provide calcium, phosphorus and vitamin A but also vitamin D to aid in the assimilation of the minerals.

Each soft gelatin capsule contains:

Dibasic calcium phosphate . 560 mg.
Vitamin A 3500 Int. Units
Vitamin D 350 Int. Units

AYERST, McKENNA & HARRISON LIMITED
Biological and Pharmaceutical Chemists, MONTREAL, CANADA

FOURTH GENERAL MEETING

U. T. S. AUDITORIUM

THURSDAY, MARCH 13, 1947

E. CARL MILLER, D.D.S.
Cleveland, Ohio

**Subject: "CLINICAL PROCEDURES THAT WILL
IMPROVE AMALGAM RESTORATIONS"**

Dr. Miller graduated from the Western Reserve University, School of Dentistry, in 1923. He is a member of the American Society of Dentistry for Children, an associate member of the Materials Section of the International Association of Dental Research, the author of various articles on amalgam, and has lectured extensively in the United States.

In his presentation, Dr. Miller will summarize all the research data and suggest a practical procedure that is applicable to the average dentist. This address will be illustrated by Kodacrome slides.

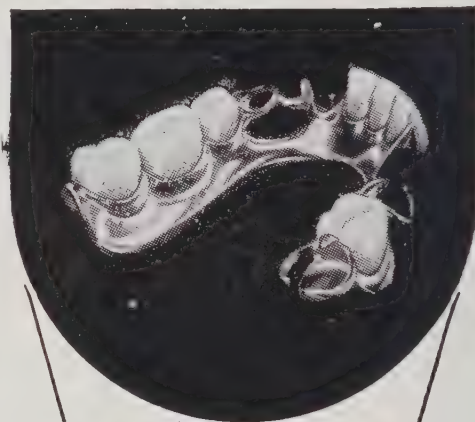

Dr. Miller will also present two limited attendance practical clinic sessions—9.30 a.m.-12 noon, and repeated, 2.30 p.m.-5 p.m. Attendance will be limited to the first twenty making application for each session.

Applications and a registration fee of ten dollars, made payable to the Academy of Dentistry, should be forwarded to the Secretary of the Academy, 230 College St.

Modern Pioneers

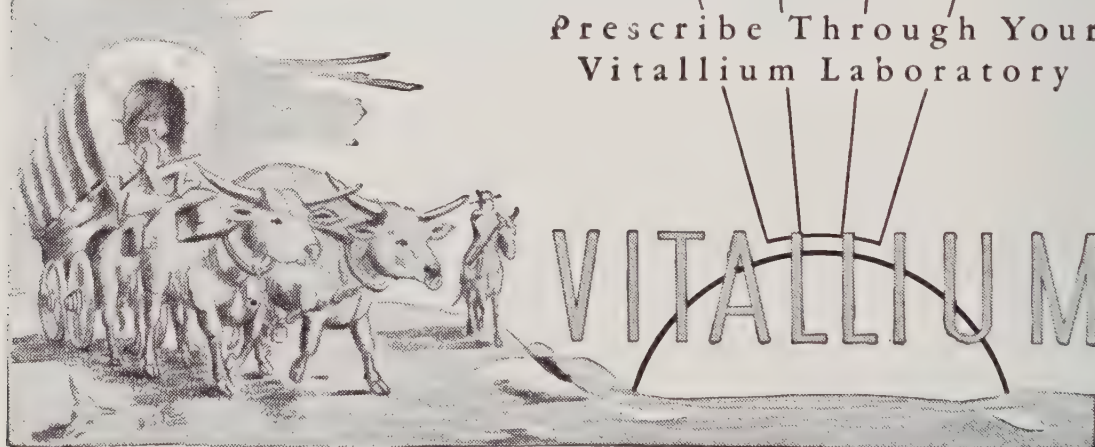

YOUR VITALLIUM LABORATORIES

In covered wagons the pioneers of the last century crossed the Great Plains in search of new lands and opportunities. Your Vitallium Laboratories have much the same spirit — a zest for that which is new and better in prosthetic methods and materials. That's why they recommend and furnish Vitallium, the modern, "friendly" cobalt-chromium alloy for cast partial dentures. Modern pioneering discovered and proved its superiority for oral use. Modern techniques have made possible new high standards of fit and comfort.

POSITIVE ATTACK IN ORAL INFECTION

Bacterial Insensitivity, more often than not, is created by minimal adaptations of the Chemotherapy employed; thus failure to provide Adequate Concentrations during Initial, and subsequent, Treatment abets Non-Susceptibility.

DENTROX CONCENTRATE

When thoroughly applied and freely adapted, creates effective Bacterial Disorganization and Stasis. Instruct the patient to retain the salival contents and thoroughly rotate them in the mouth for several minutes. Upon expectoration do not rinse the mouth.

GLYCO - VIGREN

Gives essential support to the Tissues involved, due to depth penetration and diffusion. However, dyes so employed must be applied to prepared, dried-off and isolated areas; allowed to remain in situ-contact for a few minutes prior to drying away excess. Tissue discoloration gradually fades without permanent blemish.

ENTROX - B

Employed in Supporting Home Therapy, effectively maintains Bacteriostasis; at the same time providing Tonic Upsurge to the Oral Tissues, accelerating Bacteriolysis. Reduce the dose frequency only when Bacterial Control is positively attained. Maintain treatment during Corrective Procedures, which result in denudation, etc.

SULFANOX

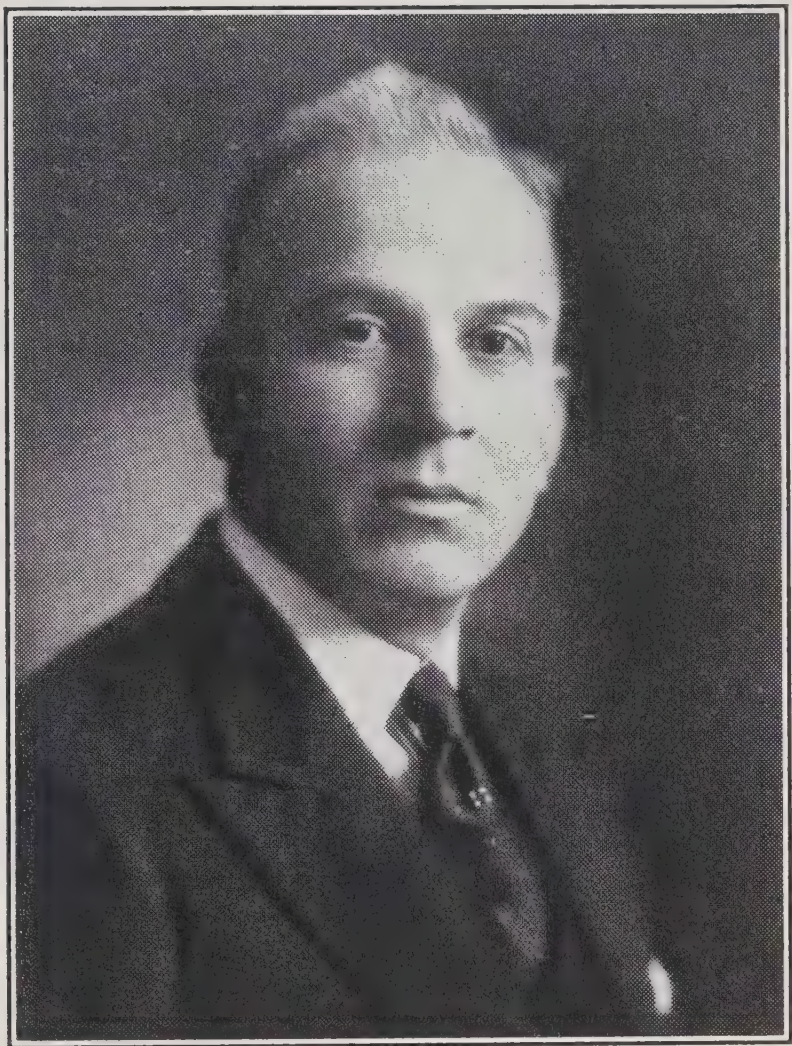

Designed for prolonged Aseptic-Stimulative Protection of Bared and Denuded Areas, should be adequately approximated to all areas; packed down into crypts, pockets, etc., and left in position. During self-elimination there is a residual film which affords protection against bacterial infiltration.

Therefore, support your Chair Procedures with essential and adequate Sulphonamide-Oxygen Chemotherapy. Do not anticipate End-Results following a "therapeutical pittance". Create Effectiveness. Idiosyncrasy is so rare, it may be termed Nil.

PROSTHETIC
WORK, THIS
WILL BE OF
INTEREST TO
YOU, DOCTOR!**

1. In addition to all the aesthetic and physical properties of NOBILIUM, there are two distinct advantages that make it advisable to prescribe this outstanding Chromium Cobalt Alloy:

(1) Clasp ADJUSTABILITY

(2) Ease of welding additions without lines of demarcation.

2. Luxene 44's unprecedented strength has virtually ended the nightmare of breakage. Clinical experience based on thousands of cases has revealed a remarkable record of service by full and partial LUXENE 44 dentures in which breakage is rare. Impervious to the chemical components of food, drink, pharmaceuticals and other substances taken orally—unaffected by fats, oils, greases, acids or alkalis.

3. For long and practical oral service make it a definite policy to have your prosthetic work processed with dependable NOBILIUM AND LUXENE 44 by our thoroughly trained technicians.

Airkem

CHLOROPHYLL AIR REFRESHENER

A "FIND" FOR DENTISTS' OFFICES

At last—Nature's great secret . . . her method of keeping outdoor air fresh and invigorating has been discovered! Thanks to recent scientific study and research—Airkem is the successful combination of Chlorophyll, "activated" for greater potency, with aromatic substances extracted from plant life . . . and so, efficiently creates a fresh-air effect indoors!

AIRKEM IN YOUR OFFICE MEANS . . .

. . . the elimination of undesirable antiseptic odors! Just a bottle of Airkem . . . and you will have fresh air, completely free from objectionable working odors, in your office the whole day long. Not only you, but your nurse and clientele, will enjoy this pleasanter, ever-fresh atmosphere!

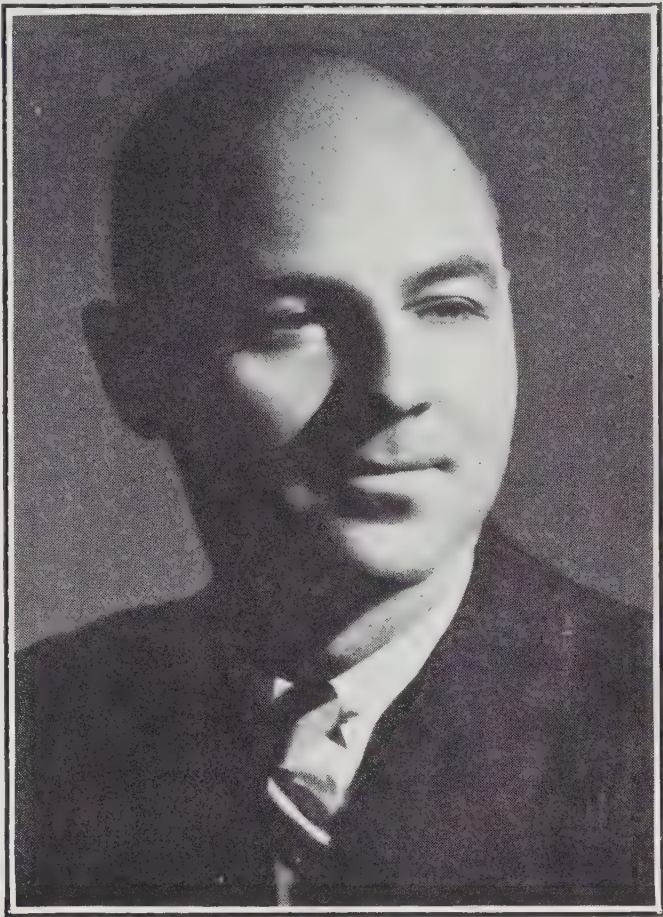

Obtain Airkem through your local Supply House.

PAST PRESIDENTS OF THE ACADEMY OF DENTISTRY

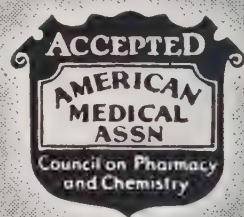

The Past Presidents of the Toronto Dental Society are identified as Past Presidents of this Academy. Below is a list of the Past President indicating the year they held office:

1891-92	N. Pearson	1922-23	R. Gordon McLean,
1892-93	J. B. Willmott	1923-24	J. A. Bothwell
1893-94	N. Pearson	1924-25	Arthur Day
1894-95	W. H. Wunder	1925-26	W. G. L. Spaulding,
1895-96	G. S. Martin	1926-27	H. G. Robb
1896-97	H. E. Eaton	1927-28	R. S. Woollatt
1897-98	A. J. McDonagh	1928-29	W. B. T. Amy
1898-99	J. E. Wilkinson	1929-30	T. E. C. Butler
1899-1900	J. B. Willmott	1930-31	E. C. Veitch
1900-01	A. E. Webster	1931-32	J. W. MacDonald
1901-02	F. D. Price	1932-33	T. R. Marshall
1902-03	W. E. Willmott	1933-34	E. A. Grant
1903-04	G. S. Martin	1934-35	Frank Martin
1904-05	C. E. Pearson	1935-36	Wm. J. Kerr
1905-06	W. G. L. Spaulding	1936-37	S. S. Crouch
1906-07	J. B. Willmott	1937-38	Harvey W. Reid
1907-08	R. G. McLaughlin	1938-39	Harold Hoag
1908-09	A. J. McDonagh	1939-40	Wm. G. Trelford
1909-10	H. E. Eaton	1940-41	Edmund T. Guest
1910-11	A. E. Webster	1941-42	Stewart A. MacGregor
1911-12	A. D. A. Mason	1942-43	Lloyd M. Grose
1912-13	C. A. Kennedy	1943-44	Charles McLean
1913-14	W. E. Willmott	1944-45	Harold Skilling
1914-15	G. W. Grieve	1945-46	Harold A. Swales
1915-16	F. C. Husband		
1916-17	E. F. Arnold		
1917-18	W. B. T. Amy		
1918-19	J. E. Rhind		
1919-20	R. D. Thornton		
1920-21	W. H. Coon		
1921-22	H. A. McKim		

MONOCAINE HCL

CANADIAN DENTAL ASSOCIATION

V. D. CROWE, President

The outstanding success of the National Convention of Canadian Dentists held in Toronto this year was in no small part due to the energy, efficiency and very hard work of many of your members. We, who came to Toronto, are indeed grateful for your hospitality and many acts of kindness extended to us.

I trust that the spirit of unity which is now so evident in our profession will continue to grow in strength throughout the whole of our great country.

On behalf of the Officers, Board of Governors and Members of the Canadian Dental Association, may I extend greetings to the Fellows of the Academy of Dentistry and best wishes for another year of progress and accomplishment.

V. D. CROWE.

ONTARIO DENTAL ASSOCIATION

DR. G. V. TARIO, President

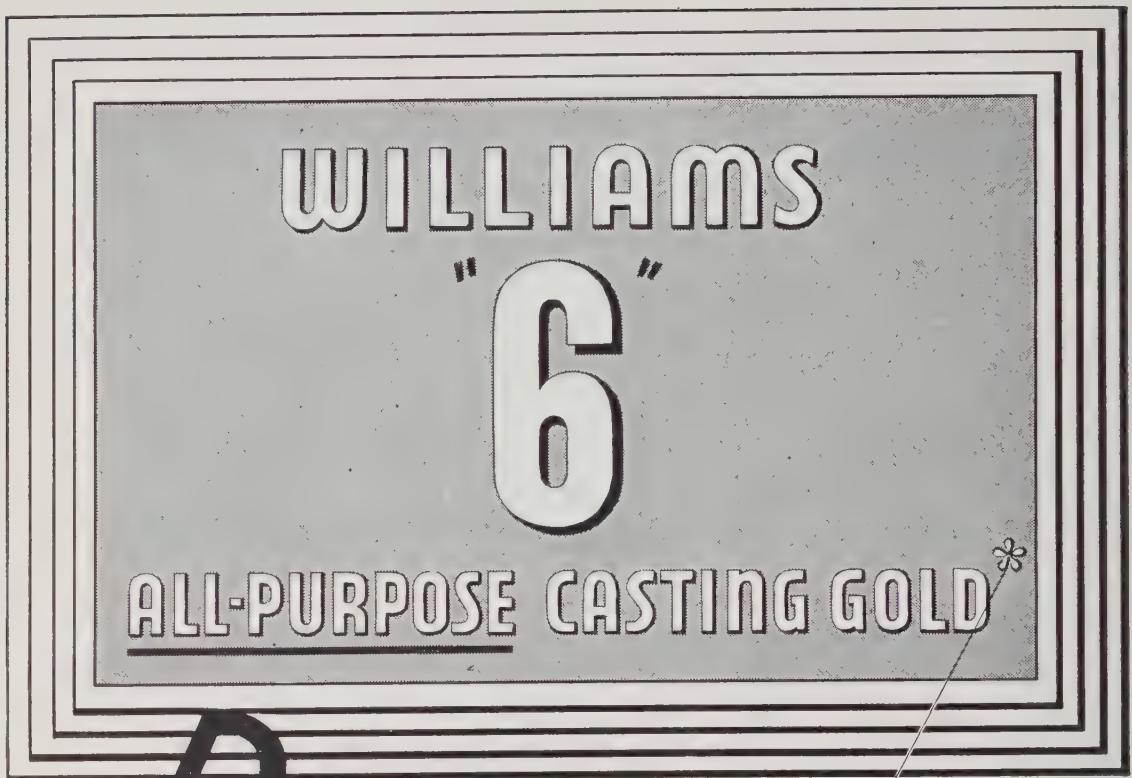

This issue of the Academy Year Book signifies the passing of another year of Dentistry—a year in which many of our military members returned; a milestone marked by the Ontario Dental Association with a “Homecoming Convention”—a convention shared with the Canadian Dental Association as the first National Convention of Canadian Dentists.

The co-operation of Dentists from coast to coast brought to fruition the hopes and desires of many members. We should not rest on our laurels. The concerted efforts of each one can lead Dentistry on to greater heights.

Our Government is assisting the Profession by promoting dentistry for the armed forces after discharge, thus inculcating a desire for the best in oral health. Let the Profession keep the lead!

The Ontario Dental Association appreciates the assistance given us by the Academy, and the special efforts of the Rehabilitation Committee. May we express our gratitude and wish you all success in continued co-operation.

G. V. TARIO.

Rx for superior castings

Two decades of service to dentistry have proved the true merit of this modern casting gold.

Combining ideal physical properties—not too hard for tooth enamel, yet exceptionally strong, light-weight and resilient—Williams "6" *All-Purpose* meets the most exacting casting gold requirements for inlays, fixed bridgework and partial denture cases. It makes color harmony in the mouth an actuality!

Specify Williams "6" *All-Purpose* to your dealer and laboratory.

BLUE CROSS HOSPITAL PLAN

The Blue Cross Plan for Hospital Care is a non-profit service in the public interest, made available by hospitals through their own Association. An outstanding development in the field of health service, the Plan embodies the principle of *voluntary* and co-operative self-help, yet retains the values inherent in private medical practice and hospitalization. It was inaugurated with the approval and co-operation of the Ontario Department of Health and is endorsed in principle by the Executive of the Ontario Medical Association. The Plan is designed to provide maximum hospital care at the lowest possible cost.

WHAT PLAN FOR HOSPITAL CARE OFFERS YOU

When your own physician says "You must go to the hospital", as a subscriber to the Plan for Hospital Care you will be entitled in a public general hospital to the following benefits for yourself, your wife and each child enrolled, without limit as to cost in accordance with the terms of the subscriber's contract.

31 days of hospital care in the first contract year; 36 days the second year; 41 days the third year; 46 days the fourth year; 51 days the fifth year.

- | | |
|--|---|
| Semi-private accommodation. | Meals and dietary service. |
| General nursing service. | Basal metabolism tests. |
| Use of operating room as often as necessary. | Dressings and plaster cast materials. |
| Anaesthetic materials. | Glucose, dextrose and saline solutions. |
| Routine clinical pathology service. | Emergency hospital service following an accident. |
| Electrocardiographic films. | Maternity care: One half the hospital charges (up to 12 days) after one year. |
| Routine bio-chemistry service. | |
| Oxygen therapy. | |

Electrocardiographic films, basal metabolism, laboratory tests and oxygen are provided only when condition necessitates continuous treatment in hospital. Benefits do not include any hospital services solely for these tests.

SOME OUTSTANDING FEATURES OF THE PLAN

- No physical examination, no health statement, no medical questionnaire.
- No exclusion as to type of illness or injury requiring hospitalization.
- No age limit for adults.

Diseases which had their inception prior to becoming a subscriber are covered.

Family rates are low and each enrolled dependant is entitled to full benefits as well as subscriber.

Private accommodation, when available, may be had by payment of the difference in hospital charges directly to the hospital.

SEMI-PRIVATE SUBSCRIPTION RATES

- Single subscriber\$4.50 semi-annually; \$9.00 annually
- Subscriber, wife and all children under 16 years of age\$9.00 semi-annually; \$18.00 annually

Membership in the Plan for Hospital Care is confined to the Fellows of the Academy of Dentistry, Associate Members, and their families. The enrolment lists are opened only twice annually, coverage to commence December 1st and June 1st of each year. Application blanks and literature can be obtained by telephoning WA. 2236. Applications, and cheques made payable to the Academy of Dentistry, Toronto, should be sent to Dr. Charles McLean, 1503 Sterling Tower, Bay and Richmond Streets, Toronto, 1. Final date for new applications: November 16th, 1946, and May 17th, 1947.

TORONTO ORTHODONTIC STUDY CLUB

PresidentMurray L. Simon
Secretary-TreasurerHarold E. Leslie

The club's program for the ensuing year will include business luncheons and evening sessions at which various types of orthodontic philosophies and techniques and their relative values will be studied.

TORONTO AFFILIATED ASSOCIATION ONTARIO DENTAL NURSES' AND ASSISTANTS' ASSOCIATION

The Executive and Members of the Toronto Affiliated Association extend a most cordial invitation to all dental assistants and nurses to enjoy with us the friendly atmosphere of our meetings, which will be held the first Monday of every month in Private Dining Room Number 7 at the Royal York Hotel.

The program committee, realizing that members may have different preferences as to program material, has arranged alternate meetings. One month the subject will be on phases of dentistry and the following month a topic apart from dentistry—keeping in mind that all meetings must maintain an educational standard. Our speakers have been chosen with that goal in mind.

We sincerely hope that all present and prospective members will join to support our effort to make 1946-1947 a most interesting season. The dates are listed below and we will be happy to welcome you.

The Academy of Dentistry has been very generous in all the opportunities and interest given to our Association, and on behalf of our members I extend grateful thanks and best wishes for a very successful year.

TOMYE TURNER, President.

TENTATIVE PROGRAM FOR 1946 - 47 (Subject to Change)

- Sept. 11—Meeting for members of the Executive.
- Oct. 7—Opening Meeting. Dr. W. L. Hugill, "Silicates."
- Nov. 4—Mr. W. G. Frisby, "Confidence in Your Speech."
- Nov. 28—Annual Winter Clinic in conjunction with the Academy of Dentistry. Several prominent speakers to be selected.
- Dec. Annual Christmas Party for the patients of The Red Chevron Hospital.
- Jan. 6—Dr. R. E. Diprose, "Technique in Radiodontics."
- Feb. 3—Renewal of our Annual Banquet, which includes "Doctors' Night."
- Mar. 3—Dr. Harry Ebbs, "Nutrition."
- Apr. 7—Annual Business Meeting—Elections—Installation of Officers.
- May 5—Miss Cay Moore, Subject selected.
- May 26-28—Sixteenth Annual Convention.
- June 25—Annual Picnic.

When just a little makes a big difference

IN EGGS, OR IN STEEL

When Chickens eat feed containing but 10 parts of manganese to a million of feed, their egg production is greater, as is the hatchability of the eggs!

When Steel contains manganese — only a few spoonfuls to many tons — there is a great increase in both strength and workability!

AND IN LOCAL ANESTHETICS, TOO!

Though the amount of Pontocaine in Novocain-Pontocaine-Cobefrin is infinitesimal*, those 75,000,000 cartridges used in less than 6 years are convincing evidence of the distinctive difference it provides.

Greater duration of anesthesia without added vasoconstrictor content; increased depth, and persistency; no increase in Novocain concentration; seldom, if ever, a need for re-injection.

These are the advantages accruing from just a little* Pontocaine in a standard 2% Novocain-Cobefrin solution . . . these are the factors that make the big difference in those operative cases where hypersensitive dentin is involved.

* only fifteen one hundredths (0.15) of one percent.

THE LADIES' AUXILIARY TO THE ACADEMY OF DENTISTRY

Now that our active assistance to the Canadian Dental Corps is almost completed, let us, with added zeal, turn our attention to our original purpose, that of assisting in every way possible the Academy of Dentistry in its social and philanthropic enterprises.

Our program committee, directed by Mrs. H. J. Mullett, has a complete yet varied program for the coming season.

PROGRAM

- Thurs. Sept. 19 1946—Luncheon. Royal York Hotel, 12.45 p.m. Speaker—Dr. Gordon Agnew.
- Thurs. Oct. 17, 1946—Membership Tea. 3-6 p.m., at the home of Mrs. S. S. Crouch, 65 Highland Ave.
- Thurs. Nov. 21, 1946—Afternoon Meeting. Prince Arthur House. Floral Display by The Marguerite Shop, Convened by the North Group.
- Thurs. Jan. 16, 1947—Luncheon—Royal York Hotel, 12.45 p.m. Speaker—Claire Dreier. Convened by the West Group.
- Sat. Feb. 8, 1947—Bowling Party, 8.30 p.m. Acorn Central Bowling Alley, 22 Sheppard St. Convened by the East Group.
- Thurs. Mar. 20, 1947—St. Patrick's Luncheon, Royal York Hotel, 12.45 p.m. Speaker—Mr. Leonard M. Reilley.
- Thurs. Apr. 17, 1947—Luncheon, King Edward Hotel, 12.45 p.m. Annual Meeting and Election of Officers.

With the termination of the Red Cross sewing group we have had many requests to resume bowling again, and we are pleased to say it has been possible to make arrangements for this. Mrs. J. A. Hillier and Mrs. S. A. Milburn have kindly consented to convene this group. Bowling will be resumed on Tuesdays, beginning Oct. 15th at 10 a.m., at the Olympia Gerrard Bowling Club, 385 Yonge St. We hope all members interested will be out in order to get teams organized.

EATON'S - COLLEGE STREET

REPORT OF THE SECRETARY 1945-46

I am pleased to report herein the activities of the Academy of Dentistry during the year 1945-46, which under the able leadership of Dr. Harold A. Swales, have been most successful.

The paid membership in the Academy this year was 369, comparing very favourably with preceding years. In addition there were 13 honorary and honorary life members, and complimentary membership was extended to 39 ex-service men who had resumed or begun practice in the Toronto area prior to the Winter Clinic, November 28th. It is the intention of the executive to extend to ex-service men who entered or will enter practice after that date, a similar membership for 1946-47.

In order to plan and carry on the activities of the Academy, sixteen executive council meetings were held, with, of course, many additional meetings of the various sub-committees.

As usual the activities of the season began with the Annual Dinner, held in the Royal York Hotel, where the guest speaker was Mr. Napier Moore, who is well known in journalistic circles.

There were four general meetings in Osler Hall, one held jointly with the Pediatrics Section of the Academy of Medicine. These meetings were addressed by essayists each of whom is a recognized authority in his field, and were the source of valuable information and inspiration to the many Fellows who attended.

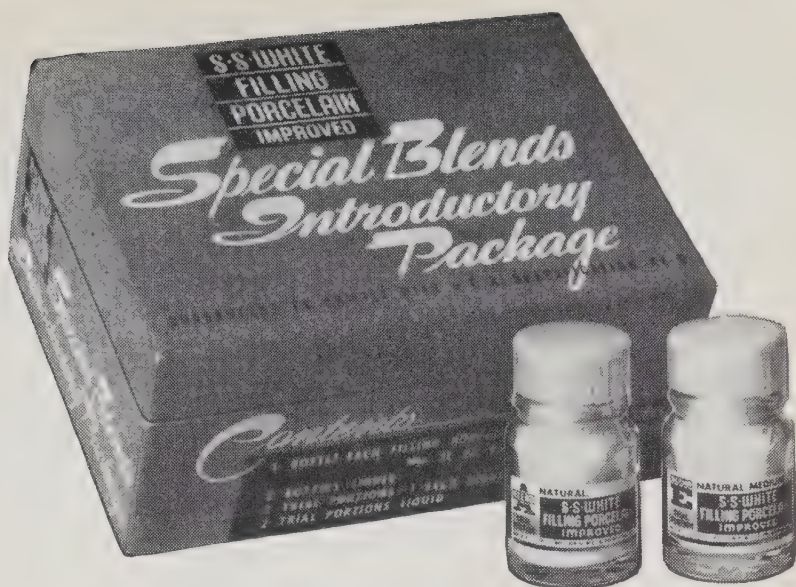

The Winter Clinic under the Chairmanship of the President-elect, Dr. H. C. Bliss, was again an outstanding success, the attendance reaching the record figure of 710, a substantial number of these being out-of-town visitors. The inclusion of a program for dental nurses and dental assistants, an innovation this year, proved very popular and highly successful.

The dental public health program was under the guidance of Dr. Geo. Hare. This group, as well as providing speakers on dental health subjects for various organizations, devoted a great amount of time and effort to the formulation of outlines for such addresses.

The scope of the War Service Committee was extended to include rehabilitation. Dr. Howard Graham gave invaluable leadership to this committee, one project of which was the welcoming and entertaining of returning service men. During the year 110 were entertained at dinner at the Old Mill. The most outstanding work of this committee was the acquisition, by lease, of the premises formerly occupied by the Canadian Dental Corps Technical Training Centre, 14 Spadina Road, to be used as temporary office quarters for returned service men, until they might obtain more suitable offices. For the organization of this project a committee was formed of representatives from the Academy and the Toronto Dental Trades Association, with Dr. H. A. Swales as Chairman and Mr. Charles McKenna as Secretary. Much credit is due this committee, all of whom gave unsparingly of time and effort in order that negotiations might be consummated. The Toronto Dental Trades Association very generously offered to underwrite any deficit in operating costs.

Dr. Charles McLean again had charge of the Blue Cross Plan for Hospital Care for Academy members. The plan, which has been operating successfully for a year and a half, provides substantial protection against possible hospital expenses for participating members and their families—a total of approximately 550 persons.

The annual prize of one hundred dollars, donated by the Academy to the graduating student showing the greatest proficiency in Dentistry for Children, was won in 1945 by F. W. Tropea. The prize donated in 1946 had not been awarded at the time of writing.

BLENDS A AND E POPULAR DEMAND COLORS

BLEND A of the Filling Porcelain Improved color matching guide became a stock color last year in response to requests from dentists who found it a perfect match for most fillings in the middle and gingival thirds of anterior teeth in patients ranging from early teen ages to thirty-five years.

Blend E now becomes a stock color because it is popular for the middle and gingival thirds of patients thirty-five to sixty and more years.

Nos. 21, 22, 25, 26, are much used tooth colors.

TRY BEFORE YOU BUY

We want you to try Blends A and E because we know they will conserve your time and improve your color matching. Ask your salesman for an F.P.I. Special Blends Package. Use the Blend A and E trial powders and liquids. Be convinced of their usefulness and the superiority of Filling Porcelain Improved, or return the remaining powders and liquids intact for credit. No charge will be made for the trial bottles.

S. S. WHITE COMPANY OF CANADA LTD.
250 College Street, Toronto 2-B, Canada

In relinquishing his office as President, Dr. Swales expressed his gratitude to the members of the executive for the support they had given him during his term of office, and his regret that the council was to lose the valuable contributions of the retiring members, Drs. Skilling, Anderson and Bancroft.

Respectfully submitted,
F. HAROLD SHEPHERD, Secretary.

ATTENTION OFFICERS OF THE C.D.C. AND RETIRED OFFICERS

The Academy of Dentistry is pleased to extend the privileges of membership to all officers in the Canadian Dental Corps and to recently retired dental officers practicing in the Toronto area.

WAR SERVICES AND REHABILITATION

Early in 1946 the War Services Committee was advised by Ottawa to cease sending boxes overseas. It was with real regret that the Committee discontinued this service to the Canadian Dental Corps Officers still far away from home. Those who have worked actively on the Committee for the past number of years feel amply repaid for their efforts by the many sincere letters of thanks received from our boys during the war period; and it has been most gratifying to hear the words of praise and appreciation tendered the Academy by the officers upon their retirement from the Army.

The Rehabilitation Committee, under the chairmanship of Dr. G. V. Morton, is carrying on where the War Services Committee left off. A series of dinners has been given at the Old Mill in honour of the retired C.D.C. officers to welcome them back into civilian practice. We hope to entertain all the men of Toronto and district in this manner.

The finding of office space has been most difficult, but this situation has been greatly relieved by the splendid co-operation of the Dental Trades Association, with whose unreserved aid the property at 14 Spadina Road was taken over by the Academy of Dentistry. This building is now filled to capacity; thus a good number of the officers retired from the Dental Corps have been accommodated.

It is noteworthy that the dental housing situation in Toronto is a very favourable one when compared with several other cities, both Canadian and American.

In closing, the Committee wishes to acknowledge its indebtedness to the commanding officers of M.D. No. 2 for the splendid assistance and advice they have proffered on all matters referred to them.

MARK G. BOYES, Secretary,
HOWARD GRAHAM, Chairman.

STERN

30

Stern 30 makes a gold casting that any dentist will be proud to offer his patient . . . and any patient delighted to use. Cast in one piece or sectionally, as lingual or palatal bars, or as inlays subject to unusual stress, this lustrous gold performs superbly under the most trying conditions.

Stern 30 has great strength and resilience, an enviable golden color, and offers strong resistance to oxidation and discoloration. Here is a denture gold that will bear comparison with any other partial casting metal at the dentist's disposal today. Stern 30 merits consideration at the first occasion. \$1.70 per dwt.

"THEY'LL CONTROL MORE THAN YOUR TEMPER AT BORDEN'S!"

WARNED ELSIE, THE BORDEN COW

© The Borden Co. Ltd.

"Calm down, dear! A Borden cow doesn't go into upsetting tantrums. You must always be in the best of physical condition. Otherwise, Borden inspectors and veterinarians, who help the farmers, just won't give you a clean bill of health.

"For Borden's insist on controlling the quality of the milk they use in foods bearing their label.

"But they don't stop by insisting—

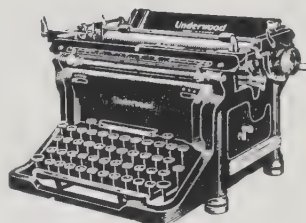

not by a long shot! Every single step in the preparation of foods made with Borden's milk is strictly supervised by expert laboratory technicians.

"So, you can see why doctors and dietitians approve Borden's foods like Borden's Evaporated Milk and Dryco for little babies. And why they know that Klim, Ice Cream, Cheese—any food produced by Borden's—can be depended on to be sound nourishment."

-if it's Borden's, it's got to be good!

With a twinkle in your eye and your tongue in your cheek you can hold your hands 18 inches apart—24 inches, maybe even 30, when you tell them about "the big one that got away." Your patients will smile knowingly and enjoy the story.

But when you are telling them about the serious business of building their dentures they want facts, not friendly kidding. You can tell

them that Vernonite — the material you use — is 100% pure methacrylic resin, and consequently assures stronger, harder, denser dentures. You can tell them and show them if you wish that Vernonite **CONTAINS NO PLASTICIZER**. This unequivocal statement of purity is printed on every package.

It means that Vernonite dentures will remain stable chemically and physically over long periods, give lasting satisfaction. Thousands of cases placed four, five, six and seven years ago are still pleasing their wearers. For dependability say, "VERNONITE."

A PLAN *today*

A NEW OFFICE *tomorrow*

• Assurance of success usually depends on sound planning. To keep your practice moving ahead, you'll want a new office suite, an extra operating room, new quarters or new arrangement, as soon as materials and equipment are available. Our salesman and the Ritter Office Planning Department are ready to help you *plan now*. Take time to outline your requirements and your preferences. Time spent in planning now is an investment in progress.

• *The Ritter Unit and Ritter Motor Chair are basic to skilled operating technique and patient confidence.*

"Don't Be Caught Unprepared!"

When the chairman calls on you, how will you respond? Will you decline in confusion; get up and apologize for lack of preparation, for not being a speaker, and then ramble on with a series of disjointed remarks? Or . . . will you quietly come forward, present one or two main points, talk without apology or hesitation, and conclude briefly and effectively?

SPEECH IS POWER

The ability to speak well is a priceless asset and the prime requisite of every leader. Enquire about the Fall courses in Public Speaking and Personality Develop starting early in September.

The Tooth Paste You Can Recommend with Confidence

HUTAX TOOTH PASTE is the formula of the Canadian Oral Prophylactic Association. It was originated by Canadian Dentists to give members of the profession a tooth paste they could recommend to their patients with complete confidence in both safety and effective cleansing.

All royalties from the sale of Hutax Tooth Paste and Tooth Brushes are turned over to the Association for research and the promotion of oral hygiene, particularly in relation to children.

DENZYLOR

A MAJOR ADVANCE IN DENTAL CARE

"GENERAL PURPOSE"

Denzylor "General Purpose" is a composite formula designed to have in limited degree the characteristics of both

Denzylor "C" and Denzylor "T". It is intended for use when there is no marked predisposition to the development of either caries or calculus.

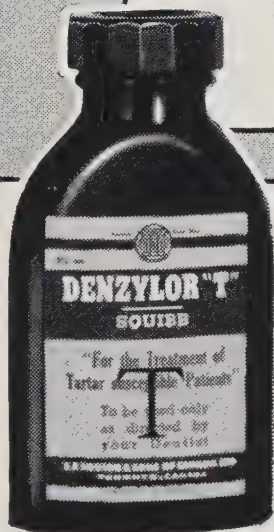

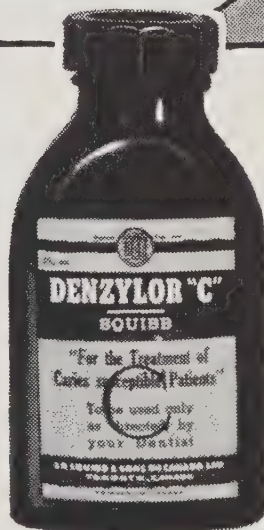

Denzylor Squibb is readily accepted by the Dental Profession,—

Denzylor Squibb, after extensive research, study and observation at the Faculty of Dentistry, University of Toronto, is now made in 3 forms.

"C" FOR CARIES

Denzylor "C" is suggested for those patients showing a marked susceptibility to Dental Caries, particularly of the cervical type, because of its tendency to create on the tooth surface a condition which persists for some time and tends to counteract the factors creating a predisposition to caries and to prevent those factors from functioning.

"T" FOR TARTAR

Where the patient shows a special predisposition to Calculus formation, Denzylor "T" may be prescribed. It has a tendency to inhibit Tartar formation by creating around the tooth surfaces an environment unfavourable to the development of new deposits and conducive to the lessening of existing ones.

PERFECT RESTORATIONS

demand perfect matching of texture and color

Restoring damaged teeth is like restoring damaged paintings—the harder it is to distinguish the original material from the added parts, the better the job, and the greater the satisfaction for all concerned. That's why HUE-LON is such a big help in the making of inlays, crowns and bridges. It blends *perfectly* with original tooth structure and color. It can even be manipulated to match discolorations of adjacent teeth! Try this new plastic, developed jointly by Du Pont and Caulk, and recognized by laboratories everywhere as the finest material of its kind. In addition to life-like naturalness, HUE-LON has high impact strength, toughness, dimensional accuracy—everything you need and want for perfect restorations.
